

# CARING COPS PROGRAM

**FRESNO POLICE OFFICERS ARE ON THE FRONT LINES 24 HOURS A DAY.  
THEY SEE THE NEEDS OF OUR COMMUNITY FIRST-HAND.**

Officers encounter situations of great need every day in the performance of their duties, and are often left wishing they could do so much more. The Caring Cops Program opens the door for officers to take an extra step, allowing them to fulfill a need beyond the ordinary law enforcement response and make a genuine connection to the Fresno families and individuals they serve. For example, where an officer responds to the theft of a child's bike and would only be able to take a report with a case number; the officer may now be able to provide a new bike for that child through the Foundation. Other examples would include providing groceries to a single parent working two jobs, infant formula and diapers to a family down on their luck, a holiday dinner to a senior without a family, or new shoes or a warm jacket to a young child on their way to school.

**The opportunities are truly endless.**
